RE: Final Action on 2020 Management Measures

On behalf of our ourselves, our business, and the thousands of customers who patronize our dockside tackle store, our charterboat the Queen of Hearts, and the three additional charterboats which operate from our shop in Half Moon Bay, we support adoption of Alternative I or Alternative II as set forth in Table 2, page 7 of the preliminary recreational management alternatives for the Point Arena to Pigeon Point zone (San Francisco zone). These alternatives give the most adequate protection for the Klamath River stock.
